Attest: M. J. BROWN

Cherk By W. A. HARWOOD Deputy Clerk,

The four big pumps to be used to draining the down town mines in Lesdville, Col., have reached that place. Two will go to the Penrose mine and two to the Bonair. Those at the Penrose will pump 1200 gallons per minute and those at the Bonair 1000. This, with other means, will make the total handled by the singular presence of mind refused to gallons per minute. The Penrose leap from the train until it had been rose, who is the president of the Commine is largely owned by Prof. Penmonwealth at Pearce.
